

EA 2026

Emerging Adults on the Road to Maturity
June 29 - July 1, 2026

WITH GRATITUDE TO THE EA2026 SCIENTIFIC COMMITTEE

Emerging Adults on the Road to Maturity | Poznań, Poland | 29 June - 1 July 2026

“A scientific community is built by people who help ideas become clearer, braver, and more responsible.”

Dear Members of the Scientific Committee,

Thank you for your intellectual guidance, academic responsibility, and generous support in shaping EA2026. Your work gave the conference its scientific direction and helped create a programme worthy of the complexity of **emerging adulthood**.

We are grateful for your care for **quality, coherence, and openness**: for your contribution to the review process, thematic structure, sessions, and the broader academic vision of the conference.

The conference brought together keynote lectures by **Professor Jeffrey Jensen Arnett** and **Professor Lene Arnett Jensen**, paper and poster sessions, workshops, and many moments of discussion. Your scientific presence helped these elements form something more than a schedule - a living forum for shared inquiry.

Thank you for helping us protect the scholarly standards of EA2026 while keeping the atmosphere collegial, welcoming, and inspiring. This balance is precious: it allows research to be demanding without losing its human warmth.

May the work begun through EA2026 continue in future projects, publications, mentoring relationships, and international cooperation.

with deep gratitude

Anna Wieradzka-Pilarczyk

EA2026 Organizing Committee

Chair: Anna Wieradzka-Pilarczyk, Ph.D.
